

New Horizons

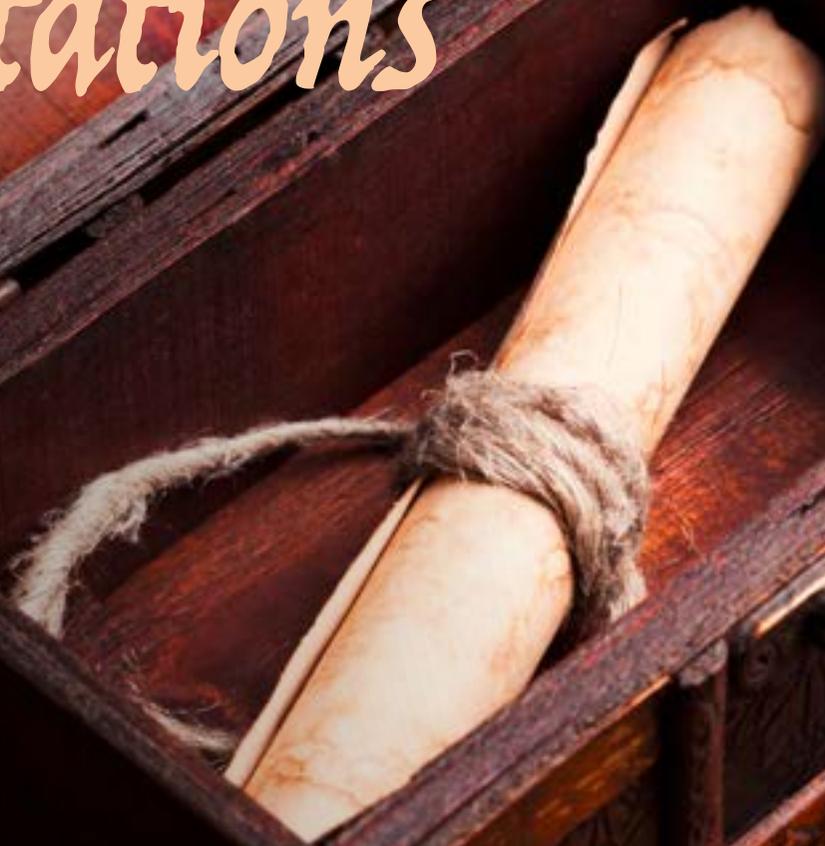

INVITATION

HAGEN
SCAFFOLD FORUM
18 TO 21 MARCH 2020

Historical Annotations

The Hagen Scaffold Forum started in the 90s as a rather normal in-house exhibition. In the course of time, however, both our demands and those of our visitors have grown.

For a long time now, the Forum has no longer been just a good advertising platform for its own products, but an extremely lively place of exchange. Professional scaffold users as well as various partners from industry-related fields meet up here.

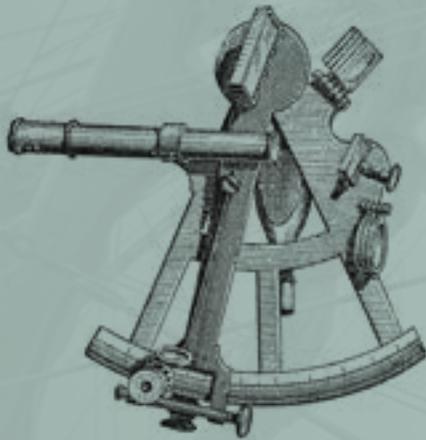

On the one hand, speeches, seminars, partner exhibitors, discussions and conversations; on the other hand, fantastic food, fine drinks and a great entertainment programme - and all this against a backdrop that tears you out of your everyday life: thereby creating a quite outstanding atmosphere.

Meet colleagues, business partners as well as old and new friends and help once again make this event something very special with your enthusiasm for your profession: New horizons await you!

“Do just once what others say you can't do, and you will never pay attention to their limitations again.”

James Cook (1728 - 1779)

New Horizons

ew Horizons“ is
the theme of the
Hagen Scaffold
Forum 2020, and

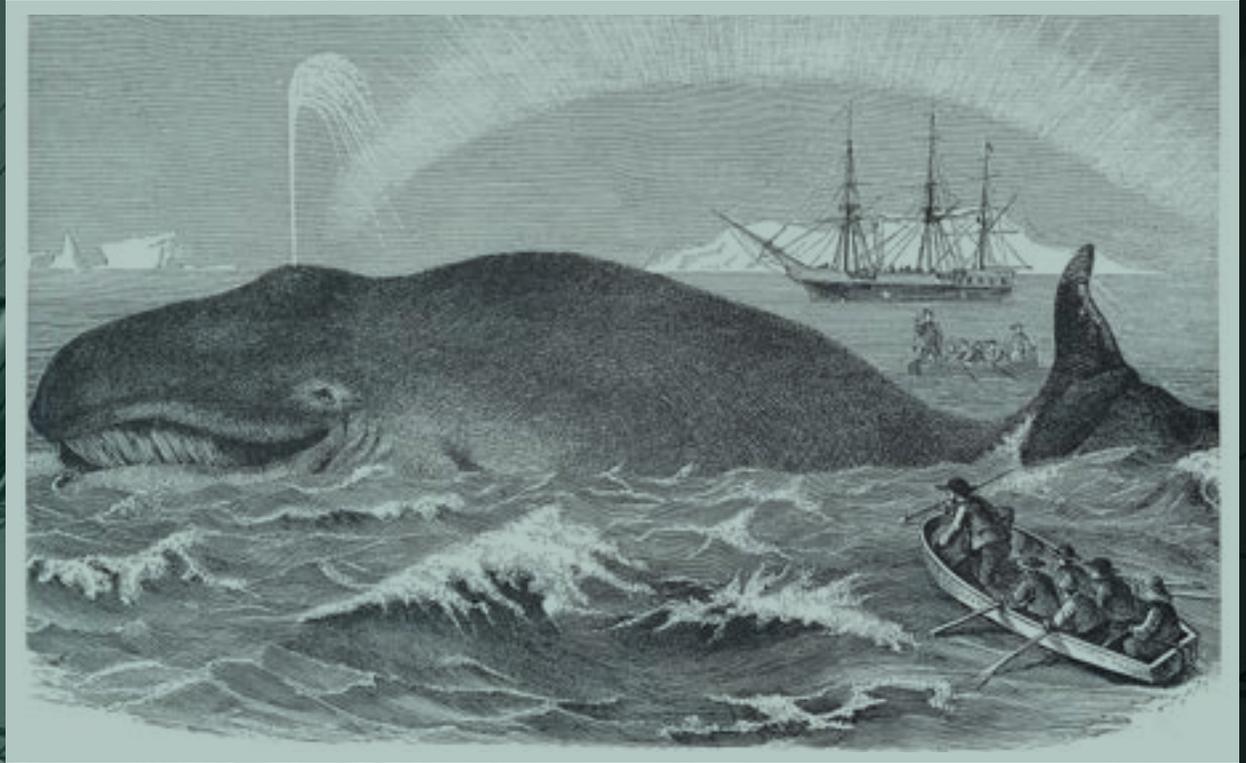

we have chosen a framework for it that, like
hardly any other, represents the spirit of change,
movement and a view of unknown places well
beyond our horizons.

Join us on a journey into the unknown, into the
future, in which many ideas were considered
whacky until they were actually realized.

Then, as now, new approaches were needed
to cope with the constantly changing circum-
stances - or even more: to see them as an oppor-
tunity to do things better ... or to think anew.

Watch our teaser:
<https://vimeo.com/365731857>

“The most dangerous worldviews are the worldviews of those who have never viewed the world.”

Alexander von Humboldt (1769 - 1859)

Waypoints and Destinations
